- Activities that allow students to interact with the content
- Quiz questions to test student knowledge
- Media-rich interactive lesson with links, graphics, media files, activities, quiz questions and text
SoftChalk Tools

Typing in SoftChalk Create

Word Commands

Paragraph Commands
Designing a Learning Module

- Copy from Word to SoftChalk Create.
  - Open Word document
  - Select the document and copy it to the Clipboard.
  - Paste the document into the SoftChalk window
Style Your Module

Styles are a convenient method in most word processors to maintain a consistent look throughout a document and even between documents. Headings become online navigation points.

- Click on a paragraph
- Select a paragraph style from the Style section of the Home tab
- Use the styles “Heading 1, Heading 2, and Heading 3” to identify sections or paragraph headings in your document.
Create a Quiz

- To create a quiz question:
  - Choose Insert
  - Select Quiz Popper.
  - Decide the type of quiz question you want to create:
    - True/false
    - Multiple choice
    - Short answer
    - Essay
    - Ordering
    - Matching
Create Hyperlinks:

- Highlight the text or graphic that will be used as the anchor for the hyperlink
- Right click and open the hyperlink dialogue window
- Type the url or address of the link
