Crafted in Munich, Germany.

To help you find your way around, we’ve created an Academic Tour. This 180,000 sq. ft. multipurpose facility, which includes a bookstore, restaurants, recreational facilities and a ballroom, was designed and built within a framework of high concern for the environment.

Today, Old Main houses the Offices of Admissions, Student Life, as well as the University’s executive and business offices and the Michael P. Weiner Learning Skills Center, which provides tutoring services for students making the transition from high school to college.

Duquesne Chapel
Built in 1894, the Duquesne Chapel, which lies adjacent to Old Main and where Masses are said daily, offers an atmosphere for spiritual reflection to people of all religious traditions. Its stained-glass windows were crafted in Munich, Germany.

Trinity Hall
West of the Administration Building sits Trinity Hall, the residence of the Spiritan priests who serve the University as administrators and teachers. 

Laval House
Laval House serves as the Spiritan Vocation Office and provides housing for visiting Spiritans and undergraduate students preparing for the priesthood. In the past, the building served as the University President’s Office and, prior to that, as a convent.

Academic Walk
The Academic Walk, or “A-Walk,” the long pedestrian mall extending through the heart of campus, was once known as Vicksy Street. As late as the 1950s, it lined with row houses where successive waves of immigrants made their homes. As Duquesne grew, one or two of these buildings became part of the University. They serve as student housing, office space and classrooms. Laval House is the last of these Vicksy Street structures.

Academic Tour
The Music School has 68 Steinway pianos and six full pipe organs. It also features two large amphitheater-style lecture halls, each with a 250-person seating capacity, as well as well-equipped laboratories and a science computer facility.

Gumbert Library
Near the crest of Locust Street is the Gumbert Library, a five-story facility with holdings that include print and digital resources as well as an extensive collection of sound recordings and the School of Education’s Curriculum Center, as well as on-site archival materials.

Libermann Hall
Duquesne’s newest academic building is a thoroughly renovated eight-story structure housing the Biomedical Engineering (BME) program and adult and veteran student enrollment services, as well as BME, Nursing and Occupational Therapy labs.

Rockwell Hall
Rockwell Hall houses the Palemko-Dohamah School of Business. This 10-story building also houses the Business School’s student affairs, First Year Center and a Technology Center for all students, as well as the office of the dean and offices and faculties.

Rangos Hall
This building houses the classrooms and offices of the John G. Rangos Sr., School of Health Sciences, including the school’s learning labs for the Athletic Training, Occupational Therapy, Physical Therapy and Physician Assistant Student. The fourth floor has the Anatomy Research and Teaching Laboratory and the School’s multimedia room. The building, an award-winning design for reuse, is Duquesne’s former field house.

Bayer Learning Center
Bayer Learning Center, one of the most technologically advanced classrooms facilities in the region, has 18 multimedia classrooms that provide satellite classroom capabilities, electronic whiteboards, comprehensive interactive software and interactive student response pads. The building also houses the offices of the School of Pharmacy.

Canenvin Hall
Canenvin Hall, which houses the School of Education, sits opposite the Bayer Learning Center. Renovated in 2008, it is the second oldest academic building on Duquesne’s campus.

Mellon Hall
Next to Bayer Learning Center is the Richard King Mellon Hall of Science. This five-story structure, designed by acclaimed architect Mies van der Rohe, houses the departments of Biological Sciences and Chemistry as well as the laboratories for the School of Pharmacy. Instructional facilities include two large amphitheater-style lecture halls, each with a 250-person seating capacity, as well as well-equipped laboratories and a science computer facility.

College Hall
College Hall, a six-story building, is the home of the McKeown College of Behavioral and Liberal Arts and houses most of its departments and instructional facilities including public computer laboratories, the University’s Writing Center, student television and radio studios, and several large lecture halls.

School of Music
Home to the Mary Pappert School of Music, this building has more than classrooms, offices and practice spaces. Inside are electronic music studios, a keyboard lab and a Music Technology Center as well as the Pappert Center for Performance and Innovation, a technologically sophisticated and acoustically superb venue for performing, recording and rehearsing. The Pappert Center is a visionary design with the latest digital equipment. The Music School has 68 Steinway pianos and six organs along with a full array of orchestral and band instruments that are available for student use, and its newly remodeled PNC Recital Hall is a venue of student and faculty performances.

School of Law
The School of Law is housed in Edward J. Hanley Hall and the John E. Murray Pavilion. The facility features research and study rooms, two large amphitheater lecture halls, interview rooms, seminar and classroom areas, and three courtrooms. The fully computerized law library is the most accessible of its kind in the city of Pittsburgh.

Fisher Hall
Fisher Hall can be reached by a skywalk spanning Forbes Avenue. This building houses the School of Nursing on the fifth floor along with computer labs and offices and classrooms for the Health Management Information Systems and Speech-Language Pathology programs, as well as the Speech-Language-Hearing Clinic, Exercise Physiology Lab, Occupational Performance Lab, Counseling and WellBeing Center, and the departments of Theology, Modern Languages and Literatures, and Physics.

Recreation and Athletics Tour
Along with retail facilities, including Starbucks, Chik-fil-A Express, a computer store, a large study lounge, and PNC Bank ATMs, the Duquesne Union houses recreational and student services, a ballroom, conference facilities and several offices including Student Activities, Greek Life, Office of Diversity and Inclusion, Judicial Affairs, Commuter Affairs, and Freeman Development and Disability Services.

Duquesne Union
Opened in 2015, the Genesius Theater is a 1,500 seat, two-story multipurpose structure that holds approximately 110 seats. The theater’s major features include a main entrance and lobby, rehearsal hall, two six-story storage rooms, building shops, costume storage and a green room.

Residence Hall Tour
At the corner of Locust Street and McKnight Drive is Brottier Hall, a building with a spectacular view of Pittsburgh, which houses approximately 750 upperclass students and some graduate students. It is the only residence hall, has 18 multimedia classrooms that provide satellite downlink capabilities, electronic whiteboards, comprehensive interactive software and interactive student response pads. The building also houses the offices of the School of Pharmacy.

Sustainability Tour
A major renovation in the Duquesne Union has earned Gold Certification under the U.S. Green Building Council’s Leadership in Energy and Environmental Design (LEED) rating system. The project created a healthier human environment, with increased focus on efficient, high-quality, low-volatile organic compound finishes and an extensive green cleaning program. It also features paneling, cabinets and doors constructed of Forest certified wood.

Power Center
The Power Center earned LEED Silver Certification from the U.S. Green Building Council. The 136,000 sq. ft. multipurpose building, which includes a bookstore, restaurants, recreational facilities and a ballroom, was designed and built within a framework of high concern for the environment.

Des Places Hall

Duquesne Towers
Duquesne Towers is a 15-story residence for 500 men and women. In addition to the resident rooms, the facility features the newly renovated lobbies and rooms with additional living space; 30 Nautilus cardio-fitness machines on the second, third and fourth floors of the Power Recreation Center, an 80,000 sq. ft. area, which is used for outdoor intramural sports and a wide variety of other recreational activities. The facility is surrounded by a four-lane, all-weather track used by the campus community as well as the University’s track and field teams.

Palumbo Center
Located at the corner of Forbes Avenue and Magee Street, adjacent to McCloskey Hall, is the A.J. Palumbo Center. The Palumbo Center serves as the home areas for the Duquesne University men’s and women’s basketball teams, and the women’s lacrosse team. At the eastern end of the field is the field house, with locker rooms, an athletic training room and coaches’ offices.

McCloskey Hall
On the corner of Salk Street sits McCloskey Hall, which is used for outdoor intramural sports and a wide variety of other recreational activities. The field is surrounded by a four-lane, all-weather track used by the campus community as well as the University’s track and field teams.

St. Martin Hall
St. Martin Hall, a 13-story coed residence hall, houses approximately 542 freshman students, with men and women on separate floors. The facility includes study lounges, a recreational lounge and a computer lab.

Assumption Hall
Assumption Hall is an L-shaped, four-story structure that houses approximately 250 graduate students and veterans in the Honor College. It features both single and double occupancy rooms and is the location of the Office of Residence Life.

St. Ann Hall
St. Ann Hall, a seven-floor coed residence hall, houses approximately 250 freshman students with men and women in separate wings of the building.

Duquesne Union, Second Floor Renovation
A major renovation in the Duquesne Union has earned Gold Certification under the U.S. Green Building Council’s Leadership in Energy and Environmental Design (LEED) rating system. The project created a healthier human environment, with increased focus on efficient, high-quality, low-volatile organic compound finishes and an extensive green cleaning program. It also features paneling, cabinets and doors constructed of Forest certified wood.
