

Voter Registration

The University Student Handbook provides a link for students to follow to the Registered Student Organization Handbook, which may be found on the Center for Student Involvement's Campus Link page, under the "Documents" section.

1. A.) Voter Registration materials are provided to all students at Voter Registration initiatives coordinated by the Student Government Association (SGA), during state or federal election periods.
2. A.) E-mails sent to the entire student population outline when and where tables are available. We also post this information to the student activities calendar, available on Campus Link and the CORQ app, as well as the TV displays in the Student Union on the 1st and 3rd floors. When students visit a voter registration table, that may either register to vote, find out how to register, or learn about why it is important.

B.) Voter Registration forms are available to all students during SGA-sponsored Voter Registration initiatives. The SGA will procure a table or tables at accessible locations on campus (such as the Student Union or Academic Walk) with voter registration materials and information.

C.) The Student Government Association contacts the Allegheny County Board of Elections to procure necessary materials for Voter Registration initiatives so materials may be available to students prior to registration deadlines.
