Global public health fair featuring posters and
tabling from various schools, programs and
services on campus

CALL FOR POSTER/TABLE PRESENTERS
In coordination with Père Jacques Laval Global Public Health Showcase: An Integrative Approach being held on campus on March 18th 2020, event organizers are soliciting poster/table presentations from faculty, staff and students. The goal of the event is to highlight work, events, resources and organizations on campus engaged in global and/or public health. In addition to a discussion and panel session held from 12-2pm, a global/public health fair highlighting these activities will be held from 4-6pm.

Submissions may be research, teaching, programmatic, organizational or reflective in nature. Examples include, but are not limited to: descriptions of study abroad experiences, projects on health disparities and working with the underserved, courses related to global health and international partnerships, educational booths on important public health issues, and more.

Interested? Email Dr. Gerald Boodoo at boodoog@duq.edu by February 28th, 2020 with the following:
• Name(s)
• Advisor (if a student submission)
• School or department
• Poster/table title
• Unstructured abstract (100-word maximum) describing your contribution
• Preference for poster or table at event

Posters should be no larger than 36" high by 44" wide. Printing costs are the responsibility of the presenter, though departmental or school support may be available in some cases.

For additional information, email Mara McDonough at mcdonoughm@duq.edu.

Sponsored by the Center for African Studies,
