A student interested in the Capstone Project option should discuss project ideas with a faculty member who will serve as the Capstone Project advisor. The student must obtain a faculty member’s signature to indicate that the faculty member intends to work with him/her. The faculty member will work with the student in writing a formal detailed project proposal. The faculty advisor approves the proposal the semester before the student registers for the Capstone Project credits. When the advisor accepts the proposal, the student obtains an In Progress (IP) grade. In the following semester(s), the student executes and completes the project within a maximum of two years.
