Each of our workshops, speakers, and experiences will be addressing an aspect of what it means to be a servant leader in our community today. For our “Practical Union” reflections, Duquesne students will share how they connect their faith experience to servant leadership and community engagement. Our prayer and reflections will allow students to look back on their days, listen to the perspectives of their peers, and link the ideas of servant leadership and service to others with our scriptural themes for the day.
