EllyDUQ is a software system that allows for the collection of digital signatures on ST5 and PDE 430 evaluations. Although the images you see below are samples of a ST5 evaluation, please be aware that the process for signing ST5s and PDE 430s is the same.

To log into EllyDUQ (please use the most up-to-date version of your web browser and DO NOT USE FIREFOX!):

1) Click the following link:  https://www.duq.edu/ellyduq
2) Enter account information (see image 1a)
   Account Name: Your MultiPass username (DO NOT INCLUDE @duq.edu)
   Password: You will receive a temporary password in an e-mail from OSTFP@duq.edu, but after you log in for the first time, you will be prompted to re-set your password to whatever you would like.
   NOTE: While your account name is your MultiPass account name (minus @duq.edu), your password is independent of your MultiPass account. In other words, you can choose a password for your EllyDUQ account that differs from your MultiPass credentials or you can keep the password the same for both. After you log into your account for the first time and change your password, please write it down in a safe, but accessible place.

If any changes need to be made to the evaluation after both parties have signed it, please make your supervisor aware, as they have the ability to make edits. If edits need to be made after both parties have signed, both you and your supervisor will need to go back into EllyDUQ and sign the revised version of the evaluation.

If you would like to re-set your password while you are logged into EllyDUQ, please select the “Support” button (outlined in red in image 1k) and then select the last option that says, “Reset your EllyDUQ Password.”
