PSYD SCHOOL PSYCHOLOGY PROGRAM OVERVIEW

Principally designed to train doctoral-level practitioners in schools, the 91 credit hour PsyD Program is accredited by the American Psychological Association (APA) and includes coursework, practica, an applied project demonstrating skills learned via the Local Clinical Scientist training model, and an internship. Completion of this Program leads to a MSED in Child Psychology, a PsyD, and State School Psychology Certification. Upon completing this Program and successfully passing the Praxis School Psychology Exam, graduates may apply for the Nationally Certified School Psychologist (NCSP) credential. In addition to schools, school psychologists with a PsyD may also practice in hospitals, child agencies and clinics, and independent practice if one seeks licensure to practice independent psychology.

APA’s Commission on Accreditation can be reached at 750 First Street NE, Washington, DC 20002-4242; telephone: 202.336.5979.

Tenets of the PsyD School Psychology Program

All children can benefit from the educational environment. Attainment of this goal requires the translation of research and theory into effective instructional and socialization practices. School psychologists implement and advocate for these exemplary practices through data-based decision making, collaboration, consultation, and demonstrating accountability to all stakeholders in terms of student achievement of cognitive and academic goals and healthy social-emotional development. The purpose of these practices is to organize schools in ways that promote learning, prevent problems, and encourage a sense of community for all students from varied racial, cultural, ethnic, experiential, and linguistic backgrounds.

To these ends, the Duquesne School Psychology Program is committed to providing students with the necessary skills to become change agents, critical thinkers, problem solvers, moral and ethical practitioners, and lifelong learners who can work as colleagues within the educational community. The School Psychology Program faculty provides these necessary skills through a challenging and stimulating curriculum, practical experiences with the most skilled and ethical practitioners, and providing ongoing service and support to students after graduation.

The Duquesne University School Psychology Program is guided by the resolutions and position statements of NASP and APA. The Program is committed to the belief that all students have the right to a safe supportive environment. PhD students will be exposed and required to work with students of diverse backgrounds (e.g. different family compositions, ethnic and cultural, ES, among other things), sexual orientation, and religious beliefs. For more information please visit:
PsyD School Psychology Program Mission Statement

The Duquesne University School Psychology Program, guided by the belief that all children can learn, is dedicated to providing both breadth and depth of professional training in a theoretically-integrated, research-based learning environment. The Program prepares ethical practitioners, scientists and scholars who are life-long learners committed to enhancing the well-being of youth, their families, and the systems that serve them. The Program achieves this by engaging in scholarly activities that advance the field of school psychology, maintaining a modern curriculum that employs aspects of multiculturalism and diversity, examining emerging trends in the profession, conducting continuous outcomes assessment for Program improvement, and providing support to our graduates.

Location and Administration of the PsyD Program

Duquesne University first opened its doors as the Pittsburgh Catholic College of the Holy Ghost in October 1878 with an enrollment of 40 students and a faculty of seven. Today Duquesne University is a progressive educational facility, which has more than tripled from its early 12.5 acres to its present 43-acre campus. Current enrollment is more than 10,000 students in 9 schools of study.

The Duquesne University School Psychology Program is located within the Department of Counseling, Psychology and Special Education, in the School of Education. The School of Education is one of eleven schools of study at Duquesne, and the Department of Counseling, Psychology and Special Education is one of three departments in the School of Education. The Dean of the School of Education is Dr. Cindy Walker. The Chair of the Department of Counseling, Psychology and Special Education is Dr. Tammy L. Hughes. The School of Education offers the Bachelor of Science degree, Master of Science in Education degree, Certificate of Advanced Graduate Study, the Doctor of Education degree, and the Doctor of Philosophy degree in a variety of fields of study. The School of Education is accredited by NCATE.

The School of Education is accredited by the Pennsylvania Department of Education and the Middle States Association of Colleges and Schools. The School Psychology Program, which began in 1969, offers a 30-hour Master’s Degree in Child Psychology (MSEd), a 91 hour Doctor of Psychology (PsyD) in School Psychology, and an 111 hour Doctor of Philosophy (PhD) in School Psychology. The Certificate of Advanced Graduate Study (CAGS) in School Psychology degree program is in the processing closing.

Program Faculty

The following are the core School Psychology faculty members:

Laura M. Crothers, DEd
Professor of School Psychology
crothersl@duq.edu

Tammy L. Hughes, PhD
Professor of School Psychology
Courses with a subject code of “GPSY” will be taught by the faculty members above. Courses taken within the PsyD degree sequence that do not carry this label will be taught by other School of Education and University faculty members.

**PsyD School Psychology Program Aims and Competencies**

The aims and competencies of the PsyD School Psychology Program are tightly linked to APA’s Standards of Accreditation, NASP’s graduate education training standards, the Program’s training model, and current professional issues of the field. Specific PsyD Program aims and competencies include the following:

**Aim 1: Train health service psychologists (HSPs) to deliver school psychological services.**

Ethical and Legal Standards Competency: Students must be knowledgeable of and act in accordance with relevant professional standards, and legal and ethical guidelines.

Individual and Cultural Diversity Competency: Students must demonstrate knowledge, awareness, sensitivity, and skills when working with diverse individuals and communities.
Professional Values, Attitudes, and Behaviors Competency: Students must behave in ways that reflect the values and attitudes of health service psychology.

Communication and Interpersonal Skills Competency: Student must maintain effective professional relationships marked by effective communication skills.

Assessment Competency: Students must demonstrate competence in conducting evidence-based assessments consistent with the scope of Health Service Psychology.

Intervention Competency: Students must demonstrate competence in evidence-based interventions consistent with the scope of Health Service Psychology.

Supervision Competency: Students must demonstrate knowledge of supervision models and practices.

Consultation and interprofessional/interdisciplinary Skills Competency: Students must demonstrate knowledge of consultation models and practices, and respect for the roles and perspectives of other professions.

Aim 2: Train leaders in the field who promote evidence-based practices (EBPs) in the particular context in which psychology is being practiced.

Research Competency: Students must demonstrate knowledge, skills, and competence sufficient to contribute and disseminate new knowledge that is unique to the practice context.

Research Competency: Students must critically evaluate and use existing knowledge within the practice of health service psychology.

Psyd School Psychology Program Course of Study Overview

In order to achieve the competencies, goals, and objectives above, the faculty is committed to a learning environment which stresses an integrated, well-organized, and specific curriculum with clear expectations. Each faculty member has a strong commitment to formal and informal student-faculty interactions that further mentor the student's educational progress, professional development and identification with the field. The climate of the Program is one that fosters healthy scholarly debate and discourse, critical questioning of current issues and trends in the field and respect for diversity in theory and practice, thus creating a stimulating and enriching educational environment. Emphasis is placed on the preparation of competent practitioners who are also skilled at the consumption and integration of scientific knowledge, theory, and practice.

Consistent with the Local Clinical Scientist model of training, students are involved in a systematic sequence of didactic courses, applied courses, and field experiences. The sequential plan of study is designed to prepare students for the professional practice of school psychology by developing foundational knowledge, skills, and professional dispositions and behavior required for school and independent practice where the ability to examine problems of practice in the local context is emphasized. A brief, narrative overview of the PsyD course of study follows.

During the first year of the Program, students are enrolled in several foundation courses designed to provide knowledge in the areas of child development, learning theories, psychological...
measurement, scientific methods and data analysis, and professional issues and development. Students also engage in coursework, fieldwork and practica dealing with individual differences, design and implementation of interventions, and intellectual, behavior, and academic assessment. Upon completing the first 30 credits in the PsyD Program, students will be awarded a Master’s of Science in Education (MSEd) degree in Child Psychology. It is the student’s responsibility to obtain, complete, and submit the degree application form to obtain the MSEd in Child Psychology.

The second year of the Program builds on the student’s knowledge base in psychology and education by providing coursework in consultation, psychotherapy, personality assessment, psychopathology, and neuropsychology. In addition, students are involved in practicum throughout their second year of study.

The third year of the doctoral Program focuses upon the cognitive, social, biological and developmental aspects of psychology, and aspects of the professional practice of school psychology. In addition, students are engaged in advanced doctoral practicum experiences where the Local Clinical Scientist Applied Project at the advanced field site, under the supervision of the field supervisor and two Program faculty members.

The fourth year of the student's Program involves the culminating experience of a supervised internship in school psychology. The internship is typically a full-time experience, although is two year half-time internship is permissible.

**Doctoral Preliminary Examination**

Students must successfully complete a Doctoral Preliminary Examination (Comprehensive Examination) after the second year of coursework. The Program has adopted the Praxis Series School Psychology test administered by ETS as the comprehensive examination. More information about this test, as well as registration procedures, can be found at: [http://www.ets.org/praxis/nasp/requirements](http://www.ets.org/praxis/nasp/requirements). The Program has adopted a passing score of 150 as this score is required by NASP to become a Nationally Certified School Psychologist (NCSP). Scores should be sent to Duquesne University and NASP at the time of testing. Students must pass the School Psychology Praxis prior to continuing to the third year of coursework.

**Practica and Internship Overview**

As Program designed to build student competency, coursework and field experiences are carefully sequenced so that theoretical knowledge, skill acquisition and the opportunity to enhance these skills are fully integrated. In addition to coursework, students are expected to engage in field experiences during each semester of residence consistent with appropriate ethical, professional and legal standards. Please note that travel to a local practicum site is necessary. In order of completion, the field-work sequence includes:

1. **First Year Practicum**
   a. Role and Function of School Psychologists field-experience (fall)
   b. Academic/Behavior Interventions field-experience (spring)
2. **Second Year Practicum**
   a. Psychotherapy and Consultation Practicum (fall)
   b. Integrated Practicum (spring)
3. **Advanced Doctoral Practicum** (fall and spring semesters of third year)
4. Internship

All aspects of practicum and internship are supervised by university faculty and by appropriately credentialed field-based site supervisors. All site supervisors are during the first two years are certified school psychologists as the experiences occur in schools. All site supervisors during the third year are certified school psychologists and/or licensed psychologists, consistent with the requirements for practice at the specific field-site. Students must log all hours incurred during practicum and internship.

Student competence given stage of training is required for each field-experience before advancing to the next field experience and then to internship. Competence will be determined by faculty evaluation of practicum performance and field-based supervisor ratings of performance. The associated faculty member will award a “Pass” or “Fail” designation for Psychotherapy and Consultation Practicum, Integrated Practicum, Advanced Doctoral Practicum, and Internship. All practica, along with other course requirements, must be completed prior to being released for internship.

Additionally, students complete an Evaluation of Site form (see Current Students tab of Program Website) following each practicum experience and these are reviewed and discussed by the Program faculty to assist in future student placement and Program planning.

Please note that Child Abuse, Criminal Record, and FBI Clearances, in addition to TB testing, need to be renewed on an annual basis as many sites are now requesting up-to-date clearances. If the internship is completed out of PA, it is permissible to submit that state’s clearance forms. Information on obtaining clearances may be found at: http://www.duq.edu/academics/schools/education/student-academic-services/clearances.

There is also liability insurance provided by the University to cover students during practicum and internship. If your site requires this form, it is available in the Program Office.

Practicum Sequence

PsyD students are required to complete a minimum of 1,000 total hours of practicum prior to internship. If a student chooses to pursue an internship in a non-school setting, 600 practicum hours must be from a school setting. Program students are placed at practicum field sites based on student learning needs and, to the extent possible, career goals of the student. All practicum activities must be logged using MyPsychTrack.com. Faculty will ask for hard-copies of logs to ensure students are meeting course and practicum requirements. It is vital that students maintain accurate logs and complete them in a timely manner. The Program will require each student to submit a .pdf “Summary Report” from Time2Track at the completion of advanced doctoral practicum activities and prior to being formally approved for internship.

First Year Practicum

During the first semester of the Program, students complete several foundation courses, as well as the first professional psychology course, GPSY 505: Role and Function of School Psychologists. As
stated in the course description, the course is designed to “introduce prospective school psychology students to the field of school psychology.” The fieldwork component of this course provides students with an introductory set of experiences through observations of school psychologists, related service providers, general education classrooms, and special education classrooms. Students are strongly encouraged to engage in direct academic intervention with individuals and groups at the filed site to obtain direct intervention hours. The second semester of the first year involves additional educational and psychological foundation courses and provides more advanced field work experience as part of GPSY 623: Behavioral Interventions and GPSY 625: Academic Interventions. During this experience, students will conduct a functional behavior assessment (FBA) and write a behavior intervention plan (BIP), and progress monitor an academic problem in order to make evidence-based recommendations. Students are required to spend at least 4 hours per week during the academic year at the first year field site and log all hours. University supervision for these experiences occurs within coursework.

**Second Year Practicum**

Students begin the second year of the Program with increasingly advanced coursework and practicum experiences. Psychotherapy and Consultation Practicum is the field-experience that supports the development of skills related to GCNE 572: Child and Adolescent Counseling, GPsy 691: Psychotherapy with Children and Adolescents, and GPsy 680: Consultation and Program Evaluation in School Psychology. Students in this practicum are required to carry an individual and group counseling case load, and engage in formal consultation with schools. The forms associated with the Counseling & Consultation Practicum and are included on the Current Students tab of Program website and include the following: Field Placement Form, Counseling & Consultation Practicum Evaluation of the Site, and the Site Supervisor Evaluation of the Practicum Student. University supervision for these experiences occurs through coursework and weekly supervision meetings.

During the spring semester of the second year of the Program, the sequential progression of practicum experiences continues. Integrated Practicum is designed to develop knowledge and skills introduced in GPsy: 505 Role and Function of School Psychologists, GPsy 512: Psychological Testing, GPsy 512: Psychological Testing, GPsy 618: Personality Assessment for Intervention, GPsy 695: Child Neuropsychology, and GPsy 690: Child and Adolescent Psychopathology. During this experience, students complete comprehensive psychoeducational evaluations regarding learning/developmental/neuropsychological problems and behavior/emotional problems, engage in problem solving teaming, and assist in the progress monitoring of students in a school setting. Students are encouraged to continue counseling and consultation activities, under supervision, as well. The required Integrated Practicum documents found on the Current Students tab of the Program website include the following: Field Placement Form, Integrated Practicum Evaluation of the Site, and the Site Supervisor Evaluation of the Practicum Student.

Students are required to spend at least 8 hours per week at the field site during the academic year and log all hours. Due to the intensity of the practicum experience, it is anticipated that students will spend an additional 8 logged hours per week engaged in preparations and follow-up activities. Therefore, the Program projects second year students will obtain approximately 16 practicum
hours per week across the fall and spring semesters. University supervision for these experiences occurs through coursework and weekly supervision meetings.

**Advanced Doctoral Practicum**

During the third year of the Program, students continue to integrate knowledge and skills learned in previous coursework and in ongoing advanced coursework. Students are placed at a school-based field-site and to the extent desired and possible, an additional field site that matches the student’s career goals and/or matches the student’s learning needs. A field-site that extends beyond the school setting for Advanced Doctoral Practicum would be considered a specialized placement where the focus is on a particular age range (e.g., preschool only), problem type (suspected neuropsychological impairment, adjudicated youth, etc.), or psychological activity (e.g., primarily counseling-focused, consultation-focused, evaluation focused, etc.). University supervision for advanced practicum occurs through coursework and weekly supervision meetings. The Local Clinical Scientist Applied Project is completed at the advanced doctoral practicum site in conjunction with the field-site supervisor and two Program faculty members. A description of the Local Clinical Scientist Applied Project may be found within this handbook. University supervision of this experience occurs through GPSY 890/891: Advanced Doctoral Practicum Seminar. Students should spend approximately two days per week at the field site during the academic year and log all hours. By the end of this experience, all students should have obtained a minimum of 1,000 total hours of practicum.

The required Advanced Doctoral Practicum documents found on the Current Students tab of the Program website include the following: Field Placement Form, Evaluation of the Practicum Site, and the Site Supervisor Evaluation of the Practicum Student.

**Internship**

**Internship Requirements**

All PsyD School Psychology internships should meet the guidelines set forth by the Council of Directors of School Psychology Programs (CDSPP). At the end of the second year, Program Faculty will review the progress of each student using the Internship Eligibility Form (Current Students tab of the Program website). Provided each criterion has been met, the student will be released to complete a 1500 hour internship supervised by a licensed (to practice independent psychology), doctoral psychologist. If the internship is to be completed in a non-school setting, the intern must have completed at least 600 hours of advanced practicum in a school setting. The internship experience reflects the final stage of training, as all coursework must be completed prior to internship, and is designed to allow students to receive a comprehensive, supervised experience for students to continue to develop ALL Program competencies and skills for independent practice. The internship experience is typically completed on a full-time basis over a period of one academic year. A half-time, two-year experience is permissible. All internship settings must agree to provide experiences specific to the training objectives of the Program as evidenced in the internship contract. Internship credit is not given for past work experiences. The intern must not be involved in other employment that conflicts with the goals and requirements of the internship. All internship experiences shall be conducted in a manner consistent with the current legal-ethical standards of
the profession. Students must log all internship activities using Time2Track and should plan on submitting internship logs to the Internship Seminar Instructor at least 4 times across the period of the internship. A final .pdf “Summary Report” regarding the internship year must be submitted to the Program office upon completion of the internship.

For the PsyD Internship, the following forms which are available on the Current Students tab of the Program website must be completed: Field Placement Form, PsyD Internship Contract, PsyD Internship Plan, PsyD Internship Evaluation of the Site, Site Supervisor Evaluation of Intern, and the PsyD Internship Completion Form. For assistance with the PsyD Internship Plan Form, please see your University Internship Supervisor.

In addition to being in good standing regarding Program competencies, student must meet the following criteria prior to being released for internship:

1. Has earned a Master’s degree in Education, Psychology, Child Psychology or a closely related area.

2. Has completed of all coursework and at least 1000 hours of practicum.

3. Has, or will have by the end of the internship experience, completed 600 hours of field-experience in schools.

4. Has passed the written comprehensive examination (Praxis II: School Psychologist with a minimum score of 150).

5. Has successfully completed his or her Applied Project.

Internship Site Supervision

Internship supervisors must have a license to practice independent psychology and, if the internship setting is a school, appropriate school psychologist certification. The internship supervisor must have a minimum of three years of experience in the provision of psychological services and/or school psychological services. Prior to beginning the internship, a signed contact must be completed. In addition, a description of the internship goals and objectives must be signed by both the intern and the supervisor and returned to the University Supervisor. Internship contracts must clearly specify that site-supervisor will provide a minimum of two hours per week of direct, individual supervision. Internship site-supervisors must agree to be responsible for no more than two interns at a given time.

The PsyD Internship Contract and Internship Plan are available on the Current Students tab of Program website. If the internship site requires its own contract, the intern will need to complete and sign both the site contract and the university contract.
Internship contracts reflect a commitment to providing a diverse set of internship experiences and supervision. Salary, if provided, is indicated. The internship placement agency shall provide appropriate support for the internship experience which shall minimally include:

1. A written contractual agreement specifying the period of appointment and the terms of compensation.
2. A schedule of appointment consistent with that of agency (school) psychologists (e.g., calendar, participation in in-service meetings, etc.).
3. Provision for participation in continuing professional development activities.
4. Expense reimbursement consistent with policies pertaining to agency (school) psychologists.
5. An appropriate work environment including adequate supplies, materials, secretarial services, and office space.
6. Release time for internship supervision.
7. A commitment to the internship as a training experience.

Please see the Duquesne University Internship Contract (Current Students tab of the Program website) for the full listing of components required in the internship contract.

**University Supervision of the Internship**

Each student will be assigned a University (faculty) Supervisor to monitor intern progress while on internship. The University Supervisor will make at least three contacts with the intern’s supervisor. The first will constitute a personal introduction and review of the Program’s requirements for internship. The second contact will be made after the completion of the mid-year evaluation of the intern and the third contact will be made after the end-of-year evaluation of the intern. The purpose of the on-site or telephone contact is to monitor the development of the intern’s competencies and provide support as needed. The University Supervisor will document these contacts for the student’s file. Generally speaking, if the intern requires university assistance while on internship, the University Supervisor should be contacted.

All interns must participate in a monthly on-campus internship seminar conducted each semester of the academic year (GPSY 903/904: Internship Seminar). The purpose of the seminar is to provide a forum for interns to share his or her experiences, learn from other interns, receive feedback regarding cases from Program faculty, learn about applying and interviewing for jobs, and receive additional didactic training. If a student attends an APA/APPIC internship, the student must still enroll in GPSY 903/903 and complete all course assignments, but the monthly contact with a group of interns may occur through the internship’s monthly meetings. If a student accepts an internship that is not within a reasonable driving distance to attend the monthly on-campus sessions at Duquesne, the intern must still enroll in GPSY 903/904 and complete all assignments, and then may either 1) write a letter to the program asking for permission to participate in the monthly sessions by videoconference, or 2) write a letter of request that the intern be allowed to attend the monthly didactic trainings and group supervision of an internship recognized by an APA/APPIC or operated by another university.
Internship Permanent Products

The intern will complete two comprehensive case studies across the internship year. These will occur as part of GPSY 903/904: Internship Seminar and specific details of the case studies will be provided in the courses' syllabi. In brief, one project will involve a case in which the intern completed a comprehensive evaluation, formed a diagnostic impression, and provided evidence-based intervention recommendations. The second case will involve a review of direct intervention services provided, including progress monitoring and outcome evaluation. These projects will, in part, be used for the Program to judge intern competency.

Evaluation of Interns

Formative evaluations occur during regular meetings between the intern and internship supervisor, as well as the mid-year contact between the internship supervisor and the University Supervisor. Another source of formative evaluation is the mid-year Internship Supervisor Evaluation of the Intern. Summative evaluation occurs at the end of the internship experience when the internship supervisor completes the end-of-year Internship Supervisor Evaluation of the Intern and the University Supervisor also completes the summative University Supervisor Evaluation of the Intern. The Program will directly email each supervisor the mid-year and end-of-year electronic evaluation forms. The intern does not need to provide evaluations form to the supervisor.

Local Clinical Scientist Applied Project

The Local Clinical Scientist Applied Project requires the completion of a project related to the applied practice of school psychology and demonstration of the ability to bridge the often present research-to-practice gap. Two School Psychology faculty members will supervise this project. One faculty member will act as the lead supervisor and the second faculty member will act as a supporting supervisor. This project must be completed by the end of the spring semester of the 3rd year as part of GPSY 812L: Advanced Doctoral Practicum I & II. A grade will not be assigned for GPSY Advanced Doctoral Practicum II until the Applied Project has been successfully completed. Successful written and oral presentation of the project are required. All other graduation requirements must be met in addition to this project.

The Local Clinical Scientist Applied Project Information form will be completed once the student, lead faculty supervisor, supporting faculty supervisor, and field site supervisor agree upon the topic and scope of the project. Please see the Local Clinical Scientist Applied Project Information Form on the Program website.

The student will construct a written permanent product regarding the Applied Project. The sections will generally be:

A. Problem Background
B. Methods Used to Examine or Solve the Problem
C. Project Findings
D. Implications of the Findings for the Location

The student will also give an oral presentation of the final project to the lead Applied Project Faculty Supervisor, Supporting Faculty Supervisor, and field-site supervisor (if the field site supervisor elects to attend) to verify successful completion of the project. The Local Clinical Scientist Applied Project Verification of Competency Form will be used to document successful completion of the project. Please see the Local Clinical Scientist Applied Project Verification of Competency Form on the Program website.

The final project must be presented to site and relevant constituents. Who is present at the report-out will vary by site. The report may be delivered to an individual, or in some cases the report may be delivered at a staff meeting, or even a school board meeting. The report out should be completed shortly after successful completion of the project. Please note that previous course assignments may only inform the Applied Project. A successful Applied Project must be distinct in scope and substance from previous work.

School Psychology Program ePortfolio

During pre-doctoral internship, each student must submit an ePortfolio to demonstrate proficiency regarding each of the Program’s 11 competencies. The ePortfolio is due March 15 every year. These competencies were previously reviewed within this handbook. The ePortfolio will be submitted to the Program through School Psychology Internship Seminar as one .pdf document. Adobe Acrobat may be used to merge all documents into one .pdf file. After the title page for the ePortfolio, a table of contents should appear. Please include a cover page for each competency to explain how the product submitted is intended to demonstrate mastery of that specific competency. As Program requirements and course assignments are complex in nature, you are permitted to use the same product to demonstrate more than one competency, but this should be done sparingly. For example, for some it is possible that the Single Subject Prospectus could be used to demonstrate mastery of competencies of 2a and 2b. However, be certain to clearly explain how the product demonstrates mastery of both competencies on the cover page of each competency. The faculty has suggested examples of products that may be used to meet each competency.

<tr>
<td>Research Competency 2</td>
<td>Single Subject Prospectus, Early Childhood Case Report, Applicable Statistics Project</td>
</tr>
</tbody>
</table>

Below you will find the rubric that will be used to evaluate the ePortfolio products. Each item numbered below will be evaluated by Program faculty using the 1=Falls Below Expectations to 4 = Exceeds Expectations. Please be aware that the rating of “Exceeds Expectations” will be reserved for truly exemplary performance compared to others at the internship stage of training. All areas represented on the ePortfolio must be rated by the faculty at the “Meets Expectations/Competent” level in order to graduate. If competency is not achieved, then a remediation plan may be devised to bring the student to the competent level.

<table>
<thead>
<tr>
<th>Rating</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 = Falls Below Expectations (for a student of your stage of training)</td>
<td>Rule bound, simplistic understanding, skill acquisition required, needs substantial improvement.</td>
</tr>
<tr>
<td>2 = Approaches Expectations (for a student of your stage of training)</td>
<td>Exemplifies basic skill or knowledge, emphasis is on mastery of technical aspects, needs some improvement.</td>
</tr>
<tr>
<td>3 = Meets Expectations (Competent performance for a student of your stage of training)</td>
<td>Exemplifies knowledge and skills that meet the training standards.</td>
</tr>
<tr>
<td>4 = Exceeds Expectations (a notable strength and exemplary performance for a student of your stage of training)</td>
<td>Recognizes patterns and context, utilizes self-analysis, minimal to no reliance on guidelines; training standards are exceeded.</td>

Comprehensive Student Requirement List

Please refer to the Comprehensive School Psychology Student Requirement List (Current Students tab of Program Website) for a complete list of all student requirements and the deadlines, organized by year in the Program.

Faculty-Student Relations

The Program faculty is committed to meeting the learning, professional, and socialization needs of its students. As a result, Program faculty members commit to the following:

- Strive to maintain positive faculty-student professional relationships by all reasonable means.
- Socialize students to the field by considering students to be future colleagues.
- Maintain a contemporary curriculum to meet the learning and professional needs of its students.
- Serve as professional mentors and Program advisors.
- Support the needs of the local SASP chapter, as a student organization that socializes future school psychologists.
- Provide a formal mechanism of feedback to the Program faculty by maintaining a “Student-Raised Concerns” item on each faculty meeting agenda.
- Consider student concerns through other informal means, such as course feedback and meetings with individual faculty members.
- Provide timely and fair evaluations of student performance.
- Enact timely and just student remediation procedures, if necessary.
- Implement timely and just due process procedures.
- Promote student attendance and resulting interaction with faculty at local, regional, and national conferences.
- Provide continued guidance and support of Program graduates.

GENERAL INFORMATION FOR DUQUESNE STUDENTS

Duquesne University Student Handbook

DORI is used to access the Duquesne University Student Handbook, the Duquesne University Code of Students Rights, Responsibilities and Conduct, and the Duquesne University Notice of Non-Discrimination and Non-Harassment Policy. For more information, please refer to Duquesne’s website at www.duq.edu.

Office of Disability Services

Students who require accommodations should contact the Office of Disability Services, located in Room 309 of the Duquesne Union (412-396-6657). Only students who are registered with the Office of Disability Services will receive accommodations. Reasonable accommodations may be granted based on appropriate documentation from a licensed medical professional. All students
are expected to demonstrate the requisite academic and technical standards necessary to complete this course and requisite to participation in the educational program, with or without an accommodation.

DORI

Duquesne Online Resources and Information (DORI) is a vital gateway to University intranet pages, web-based tools, and shared news and links. Students most often use DORI to register for classes and print obtain class schedules. As indicated below, students must use their MultiPass account to access DORI. Any technical difficulties you may encounter during the activating process or during regular use may be addressed by calling the CTS Help Desk at 412-396-4357 or email at help@duq.edu.

MultiPass

MultiPass is your key to multiple electronic resources at Duquesne. Once your MultiPass account is initialized, you can use one MultiPass user name and password to access DORI, to register, and use the DuqNet wireless network. All Duquesne students should get a MultiPass user name and password as soon as possible. Please check the Duquesne website at www.duq.edu/cts to obtain your MultiPass account.

University Weather and Emergency Closings

Duquesne University has established a complex emergency information system. When you access your MultiPass account, you will be prompted to provide methods by which you wish to receive emergency and weather-related information. This may take the form of a phone call or a text. When weather conditions or other emergencies cause a delay or cancellation of classes, updated information will also be available on a recorded message at 412-396-1700. Updated emergency and closing information may also be obtained from local television stations KDKA, WTAE, WPXI and their websites, from major local radio stations, and on the Duquesne Daily website at http://www.duq.edu/life-at-duquesne/student-services/career-services/employers/emergency-cancellations-and-delays.

PSYD SCHOOL PSYCHOLOGY PROGRAM POLICIES AND PROCEDURES

School Psychology Website

The School Psychology Program maintains a website (http://www.duq.edu/academics/schools/education/academic-departments/counseling-psychology-and-special-education/psyd-school-psychology) of current information regarding the Program, including an overview of the Program, Program faculty, admissions procedures, frequently asked questions, Program resources, including electronic copies of forms, and the course sequence. Students are strongly encouraged to visit the Program website to seek answers to questions, in addition to consulting Program faculty.
School Psychology Listserv

All Program students are required to join the Duquesne School Psychology Mailing List/Listserv. The list is for current students, previous students, and interested school psychologists in the Pittsburgh Area. Content includes Program specific information and discussion about issues in school psychology. To subscribe to the list:

1. Address and e-mail a message to: lyris@lyris.duq.edu. You must send this e-mail in PLAIN TEXT format. Make sure you are not sending this mail in HTML or Rich Text format. Usually this setting is on a menu called format.

2. Write the following 2 lines at the start of your mail message:
   subscribe schoolpsych-list
   end

3. Send the message

To send mail to everyone on the mailing list, address your e-mail to:

schoolpsych-list@lyris.duq.edu

To remove yourself from the list:
Send this command in the body of an email to lyris@lyris.duq.edu:
unsubscribe schoolpsych-list.

PsyD School Psychology Program Admissions Procedures

Students are admitted into the PsyD Program once per year with an annual application deadline of January 15. The PsyD School Psychology Program application, transcripts, GRE scores, letter of interest, and letters of recommendation are all submitted to the Program through the online application process. The faculty reviews all PsyD application materials and identifies applicants who are judged to have a high likelihood of success in graduate studies, and have professional goals and interests that align with obtaining a doctoral degree in school psychology, the PsyD as a professional practice degree, and the Local Clinical Scientist model of training. Successful applicants are invited to an on campus interview. The faculty then considers all application materials and interview information to make admission offers. With an admissions offer, the student will then enroll in classes for the upcoming fall semester. The Program does not engage in "rolling admissions."

To be considered for admission, applicants must complete the following steps. By following this procedure, there will be no application fee.

1. Prepare a letter of interest to upload into the online application. A letter of intent describes educational, professional, research, and personal experiences that have resulted in an applicant's interests to pursue a career in school psychology, specifically pursue a PsyD in school psychology, and consider the Duquesne University PsyD School Psychology Program in particular. The letter of
interest should also outline an applicant’s career goals so that the faculty may judge the match between the applicant’s goals and the stated goals and competencies of the PsyD Program.

2. Prepare a curriculum vita/resume to upload into the online application.

3. Obtain official undergraduate and graduate transcripts, and then scan each transcript separately to be uploaded into the online application.

4. GRE scores obtained within 5 years of the date of application are required and should be sent to Duquesne University. The online application will ask you to enter your Verbal Reasoning, Quantitative Reasoning, and Analytical Writing scores. The Program will verify the scores you insert.

5. Duquesne University requires submission of TOEFL or IELTS scores for all non-native English speaking applicants. Additionally, the English as a Second Language Program conducts a review of each matriculated student upon arrival to determine individual needs for English instruction to support success in his/her degree program. The University requires the following minimum scores in each area to be considered for admission: TOEFL minimum of 80 (internet based) with no sub-score less than 17, or 550 on the paper-based test; IELTS minimum score of 6.5 with no sub-score below 6.5 for Reading, 5.5 for Writing, 5.5 for Speaking, and 6.0 for Listening. Have these scores ready to insert into the online application.

6. The online application will ask the applicant to supply the names and email addresses of three persons who are willing to write a letter of reference. The online application process will then email each letter writer and ask them to upload a letter of reference regarding your application to the Program. Please inform your letter writers to expect an automated email.

7. Then, complete the online application. This application is more detailed and requires you to upload the documents above.

Faculty members will review all completed applications and rate each according to the quality of submitted materials (letter of intent, transcripts, test scores and references) and match with the stated goals and competencies associated with the PsyD Program. Successful applicants will then be selected for an on-campus interview. Applicants will be notified by email or telephone of an interview invitation, as well as the time and place of the interview. Although an on-campus interview is strongly preferred, if an applicant is unable to attend an on-campus interview, a videoconference interview will be arranged. After final admissions decisions have been made, letters of acceptance, rejection, or wait list status will be emailed and then air/ground mailed to all of the applicants. Final decisions are made after April 15 of each year.

Admissions of Practitioners Returning for a PsyD in School Psychology

A practicing school psychologist who has previously earned a CAGS in School Psychology from Duquesne University or a specialist degree in school psychology from another NASP-approved program may apply for admission to the PsyD Program. Graduate students who enter the PsyD
Program with a Specialist degree in school psychology from another university will have their transcript reviewed to ensure that the previous graduate coursework reflects the competencies of the Duquesne University School Psychology Program. If the previously completed specialist program was NASP-approved, the student may design with their advisor a plan to receive advanced standing. Before a class is accepted as a transfer class, the student must contact each course instructor to provide evidence that the competencies of the class have been previously met. Between the courses “transferred” from the pre-doctoral degree program and the courses taken within the PsyD School Psychology Program, the credit total for graduation is 91 credits. As variations between NASP-approved programs exist, a list of recommended readings will be provided to the student to reflect the competencies of the Duquesne University School Psychology Program. Graduate students who enter the PsyD Program with a specialist degree from a non-NASP-approved program, or enter the Program with an advanced degree from a related field to school psychology, will have his or her transcript reviewed in detail to determine if remedial coursework is necessary prior to progressing to uniquely PsyD Program coursework and applied experiences. All students must spend two years in full time study at the University before proceeding to internship.

**Academic Standing – Credit Transfer Policy**

An academic department may accept course work completed at another regionally-accredited university toward meeting its graduate degree requirements. Transfer credits earned at another institution may be accepted only if: 1) the student has been admitted to graduate degree status at Duquesne University; 2) the transfer credit is approved by the appropriate program director; 3) the courses taken are graduate courses applicable to the Duquesne graduate degree program; and 4) grades of at least a 3.0 on a 4.0 scale were achieved. The program director of the program or department offering the course establishes the final determination of the acceptance or denial of transfer credits.

A course that has an original credit value less than its Duquesne-program equivalent may be transferred with the approval of the program director but will be awarded credit based on the original credit value of the course. The transfer of this course may fulfill a program requirement but result in fewer credits applied toward the degree; it will not lower the minimum credits required to graduate.

Although a course that has an original credit value greater than its Duquesne-program equivalent may be accepted as an equivalent DU course, only the number of credits awarded for the DU course may be applied toward the degree; any remaining credits for that course cannot be transferred as elective credits.

These requirements apply to any credits earned in another graduate program, including another graduate program at Duquesne. Official transcripts documenting the transfer credit must be on file prior to the granting of credit on the student’s Duquesne transcript. No grades of transferred courses from institutions other than Duquesne are included in the student’s grade point average. Generally, Duquesne does not accept more than six (6) semester credit hours as transfer credits for a master’s degree of 30 hours or no more than 25% of the total semester hours for a master’s degree requiring more than 30 hours. A program may accept up to 24 semester credit hours in transfer for a Ph.D. or other academic doctoral program. Professional graduate programs, at both
the master’s and doctoral level, may accept transfer credit in accordance with commonly accepted practice for their academic discipline within higher education as promoted by their professional accrediting body or learned society.

The student’s academic advisor will initially approve the acceptance of transferred courses, but it remains the student’s responsibility to produce evidence (e.g., assessment reports, course syllabus, etc.) supporting the transfer of credits. Final approval will be granted by the course instructor, or in the cases of non-core School Psychology courses, the academic advisor. Appeals may be made using the School of Education grievance procedures discussed in this handbook.

If a student has already obtained a master’s degree, the Program may accept that master’s degree and accept any course that closely matches a School Psychology Program course using the procedure above. Such a student would be considered to have advanced standing, would not obtain a second master’s degree from the Program, and the student would continue with courses unique to the relevant School Psychology Program sequence. The advanced standing form can be found within the new student registration packet found on the Current Students tab of the Program website.

**Change of Degree Programs**

If a student would like to change degree sequences (e.g., PsyD to PhD), the student must complete a new application and follow all application guidelines for the desired degree program. It is not permissible for students simply to elect to change or migrate between School Psychology Program degree sequences without making a formal application. In the case where a current student is accepted into a new degree program, the student’s program of study will be reviewed with the student’s advisor to ensure that the future course of study will meet the requirements of the new degree sequence.

**Statute of Limitations**

As dictated by School of Education policy and as students of a “pre-masters doctoral program,” PhD Program students are expected to complete all degree requirements within 8 years of the first date of coursework. First date of coursework is defined as the last day of the semester in which the student was first enrolled. This provision applies to students who enter with or without advanced standing or transfer credits.

Graduate course work used to meet degree requirements must be completed satisfactorily within a period of six years immediately preceding conferral of a master’s degree and eight years for a doctoral degree. A course completed outside of those time limits for degree conferral must be evaluated to determine if it meets current degree requirements. Therefore students wishing to transfer credit from another institution (see credit transfer policy) or returning to Duquesne University after a significant break in enrollment in a graduate or professional program may be asked to re-take certain courses to validate their knowledge or otherwise demonstrate mastery. Note: a graduate program may set shorter time limitations that are consistent with disciplinary currency in the field. The decision about whether a student will need to re-take any courses is
made initially at the time of re-admission given an expected conferral date but may be revisited should an unapproved absence extend the student’s completion date.

Students with disabilities who may require an extension of time to complete a graduate degree are encouraged to contact the Office of Special Services.

Under exceptional circumstances, a candidate for an advanced degree may apply for an extension to the statute of limitations. An extension can be requested in the form of one of the three kinds of leave: medical, military, and personal. An extension of time for completion of a degree will be granted only in cases where there is clear evidence of progress towards successful completion of the degree, and where the student can document an extraordinary reason for being granted an extension. The application for an extension (i.e., medical, military, or personal) must include a detailed schedule for degree completion.

Students are expected to register in their program of study for all Fall and Spring semesters during their academic studies unless they have been granted a leave of absence. Students who have not been registered in their program of study for two consecutive semesters of required enrollment must be readmitted to their academic department or program in order to continue their studies. Regardless of any absences during their programs of study, students who do not enroll and are not on an approved Leave of Absence will be held to their original statute of limitations for degree completion upon their return. Students may not suspend their enrollment in their degree programs in order to avoid the statute of limitations policy.

Requests for an extension to the statute of limitations must be submitted by the graduate student to his/her advisor who will review the request and provide a written recommendation that is forwarded to the program director. Next, the program director will review the request and provide a written recommendation that is forwarded to the department chair. The student will be notified in writing of the decision via electronic mail directed to the student’s DUQ email address. An appeal for denial of the request for extension may be submitted to the school’s academic dean whose review and decision are final.

The timeline for requesting an extension to the statute of limitations is as follows:
- The student must submit the request for an extension to his/her advisor no later than 25 business days prior to the expected graduation date. However, the School of Education strongly encourages students to request the extension (a medical, military, or personal leave) as early as possible so that faculty members can work with students granted a leave to make sure that they will be able to meet all degree requirements and be eligible for graduation in a timely manner upon their return. When the student submits a request only 25 days prior to the expected graduation date and is not granted an extension, it is unlikely that s/he will have time to complete the work and graduate.
- The advisor will forward the request for extension with his/her recommendation to the designated school committee or office within 5 business days of receipt of the request.
- The designated school committee or office will review the request for extension within 5 business days of receipt of the request and the advisor’s recommendation.
- The designated school committee or office will notify the student in writing of the decision to allow or deny the request within 5 business days of the decision.
• If the request is denied, the student may file an appeal for review of the decision to the school’s academic dean within 5 business days of the date of the relevant or designated school committee or office’s written notification.
• The academic dean will notify the student of his/her decision regarding the appeal within 5 business days of receipt of the appeal. The decision of the dean is final. A student who does not complete his/her degree as required by the statute of limitations may not apply for re-admission to pursue the same degree at Duquesne University.

Temporary Approved Leave of Absence from Graduate Study

In some cases, students may be permitted to take a temporary approved Leave of Absence. Three types of temporary leave exist at the graduate level: medical, military, and personal.

Medical Leave of Absence
Duquesne University students may apply for a medical withdrawal due to extreme illness, serious injury, or extended hospitalization. Because a medical withdrawal affects academic progress, students are encouraged to consider other options that might enable them to remain enrolled (such as "I" or "incomplete" grades that would enable them to complete coursework after the end of the semester). Students should consult their academic advisor, the Office of Student Financial Aid, the Office of International Programs and other offices as appropriate.

Medical withdrawals constitute complete withdrawals and result in final grades of "W" in all courses on the transcript for the semester in question. The University does not grant partial medical withdrawals (i.e., requests to withdraw from some courses but not others). The only exception is if the student has already completed one or more accelerated (i.e., 8-week) courses, in which case the grades earned in all such courses remain on the student's transcript and the associated costs are included when calculating the student's account balance; the medical withdrawal results in final grades of "W" for all other courses on the transcript.

Withdrawal
Except in extraordinary circumstances, students must submit a written request for a medical withdrawal to their academic advisor no later than the last day of classes for the semester to which the withdrawal would apply. The university does not grant withdrawals for prior semesters. The school or college will then submit to the Registrar (a) a Notice of Complete Withdrawal form (withdrawing the student from all courses) or a Request for Student Schedule Change form (withdrawing the student from courses still in progress when one or more accelerated courses has already been graded) and (b) authorization from the student to process the withdrawal. This authorization may be either in hard copy with the student's signature or in the form of an email sent from the student's Duquesne University email account.

Medical Documentation
To qualify for a medical withdrawal, the student must also submit to the dean of his or her school or college (a) a description of the medical circumstances and (b) documentation from a licensed
healthcare provider that addresses those circumstances and supports withdrawal as medically appropriate. After verifying the illness, injury, or hospitalization, the dean submits the documentation to the Provost and Vice President for Academic Affairs for review and a final decision.

If the student is unable to initiate the medical withdrawal process, the student's school or college office, parent, spouse, partner, or other designee may do so on his or her behalf. In such cases, the incapacitation of the student must be documented or a formal power of attorney provided.

**Consequences**
The approval of a medical withdrawal results in the immediate assignment of a final grade of "W" for the relevant courses on the transcript and an automatic review of the whether the student may qualify for a partial tuition refund (see "Refunds" below).
The University reserves the right to require that a student who receives a medical withdrawal provide documentation from a healthcare provider that he or she is fit to reenroll in a subsequent semester.

**Refunds**
The Provost and Vice President for Academic Affairs advises the Vice President for Management and Business whether any tuition for the current semester should be refunded to a student whose request for a medical withdrawal is approved.

Based upon the effective date of the medical withdrawal (see under "Withdrawal" above), refunds will be calculated by the offices of Student Accounts and Financial Aid as follows:

- For the first four weeks of the semester, refunds follow the standard refund policy (see the "Total Withdrawal" deadlines listed in the Academic Calendar).
- From the fifth through the eighth week of the semester, refunds will be limited to 20%.
- From the ninth through the twelfth week, refunds will be limited to 10% and any already graded accelerated courses will be billed at the full per-credit rate.
- After the twelfth week, no refunds will be due.

Any reduction to Title IV funds will be determined using the Federal Financial Aid pro rata refund policy. University gift aid and all other non-Title IV financial aid will be reduced by the same percentage as the tuition reduction and returned to the source of the funds in question. Laboratory fees, University fees, housing costs and fees, refunds prior to withdrawal, and any other fees already committed by the University on behalf of the student will not be refunded.

Refunds due as the result of a medical withdrawal will be paid to the student within ten business days after the credit balance is created for the semester for which the medical withdrawal was approved.

**Process Outline**
- Student submits request for medical withdrawal to academic advisor
• School submits Notice of Complete Withdrawal or Request for Student Schedule Change with student’s written authorization to Registrar
• Student submits written description of medical circumstances and documentation from a healthcare provider to Dean
• Dean submits case file to Provost and Vice President for Academic Affairs
• Provost reviews case and renders decision
• Provost notifies the Vice President for Management and Business of any refund due

A Military Leave of Absence is defined as leave that is granted based upon a student’s call to duty or training in the Armed Services or a Reserve Component. Students who are called to active duty or training of any type, whether voluntary or involuntary, may request a Military Leave of Absence by submitting to the dean, or his or her designee, a written request along with copies of their official military orders. Students who are registered at the time they seek a Military Leave of Absence should consult the Catalog of Graduate and Professional Programs for the required procedure to file a Notice of Complete Withdrawal for the term. Requests for military withdrawal should be filed prior to departure but must be filed no later than 60 days following the termination of military orders. Spouses of service members called to active duty may also request a Military Leave of Absence and should follow the same procedure to request the leave.

A Personal Leave of Absence is defined as leave that is granted based upon any grounds other than medical reasons or military service. A maximum of three semesters of Personal Leave may be granted. A request for personal leave should be filed at the time it is determined the leave is needed, since it will not be granted retroactively. Students who are registered at the time they seek a Personal Leave of Absence should consult the Catalog of Graduate and Professional Programs for the required procedure to file a Notice of Complete Withdrawal for the term. Requests for a Personal Leave of Absence are submitted by the graduate student to his/her advisor who will review the request and provide a written recommendation that is forwarded to the program director. Next, the program director will review the request and provide a written recommendation that is forwarded to the department chair. The department chair will forward the recommendation to the Dean. The Dean makes the decision about the leave, and his/her decision is final. Dean’s office will notify the student, advisor, director and chair of the decision. A Personal Leave of absence will not be granted for the sole purpose of extending a student’s statute of limitations.

Approved Medical, Military, and Personal Leaves of Absence do not count toward a student’s statute of limitations. Students granted an approved Leave of Absence will have their time-to-degree extended by the amount of time granted by the leave. Readmission of a student following an approved Leave of Absence is granted automatically if the student was in good standing when the Leave was granted.

During an approved Leave, students are not enrolled nor do they have an active student status. Students taking an approved Leave of Absence should make every effort to resolve any grades of incomplete that are due to convert to failing grades prior to beginning a leave or should negotiate with the course instructor(s) a time line for the completion of remaining work. Any extensions of
the I-to-F deadline must be approved by the course instructor(s) and communicated to the University Registrar.

International students should consult with the Office of International Programs before requesting a leave of absence, since visa status and other related issues could be affected.

Stipends, grants, financial aid, insurance and/or other funding may be impacted by federal law and/or university policy when taking an Approved Leave of Absence and should be investigated prior to leave.

**Residency Requirements**

The School Psychology PsyD Program consists of a minimum of four years of full-time, graduate study. If a student enters the program with advanced standing the student must spend at least 2 years as a full-time student at the university. Once admitted to the Program, it is expected that all students be enrolled continuously. This residency requirement allows students the opportunity to interact with faculty and other graduate students and to become familiar with university resources. All Program requirements (including Local Clinical Scientist Applied Project and internship) must be completed within the specified timelines (PsyD is 8 years).

**Incomplete Grades**

“I” grades (incomplete grades) will be granted in extenuating circumstances when a student has successfully completed the majority of class requirements. The student must contact the instructor and complete an Incomplete Grade Application, which must be submitted to the Dean’s office for approval. The Incomplete Grade Application is available online in the School of Education Policy and Procedure Manual and through the office of Student Academic Services in Canevin Hall. A Contract for Completion of Incomplete Grades must be completed and signed by the instructor and student. To have the “I” grade changed to a letter grade, the student needs to complete the contract in the specified amount of time. If it is not changed within one year, an “I” grade will convert to an “F” grade.

“IP” grades (in progress grades) may also be granted in extenuating circumstances when a student has successfully completed the majority of practicum, internship, or dissertation requirements. Change of an “IP” grade is completed by the course instructor using a Change of Grade form available through the office of Student Academic Services in Canevin Hall.

**Continuous Enrollment Policies**

As dictated by School of Education policy, in order to qualify for continuous registration, a master’s (thesis) or doctoral student must have completed all required courses and have earned (or have previously registered for) all required thesis or dissertation credits. In order to maintain an enrolled status once all required credit has been earned, students must be registered for a Continuous Registration FT (GRED 702 01) class for required fall and spring terms of enrollment up to the point of graduation. Continuous Registration FT will be charged a flat rate of $726.
For master’s or doctoral students who “stop out” and have missed required terms of continuous registration, retroactive continuous registration sections will be created and students charged the flat rate for the number of required semesters missed.

A student may not use continuous registration just to enable full time status while the student is still earning credit. However, should a student who is still earning credit toward a Program of study need to "stop out" the student should simply not register for that semester. In such cases the student will remain an active student and be able to resume classes when ready.

**Effective Date and Reporting**

All students must have Active status or Leave of Absence status at the start of the Fall semester and must maintain one of these statuses to avoid “readmission” and its associated fee.

**Withdrawn Status and Readmission**

If a student has formally withdrawn from the University, the student has Withdrawn status. Changing a student’s status from Withdrawn to Active must be approved by the Program and the Department.

*Readmission* is the process to regain Active status after holding Withdrawn status. A student must complete the Readmission Form and, after Program and department approval, submit it to Student Academic Services in Canevin Hall.

A student who has exceeded the statute of limitations for completion of a Program is considered to have Withdrawn status with the University. The University will not readmit a student if the statue of limitations has been exceeded.

**Inactive Status and Readmission**

If a student does not hold Active status or Leave of Absence status, and has not formally withdrawn from the University, the student has Inactive status. Changing a student’s status from Inactive to Active must be approved by the Program and the Department.

Readmission is the process to regain Active status after holding Inactive status. A student must complete the Readmission Form and, after approval, submit it to Student Academic Services in Canevin Hall along with a readmission fee. The fee will be deposited in the same manner as application fees for the student’s Program.

**Independent Study**

The Independent Study guidelines are as follows:

1. The Independent Study should provide for the in-depth investigation of a specific problem.
2. The investigation should be based upon a problem conceived and stated by the student. It is assumed that the suggestions and advice of the faculty sponsor should be recognized as
essential in the determination of the nature of the problem and the investigative procedures.

3. Independent Study is offered on a variable credit basis. A maximum of three credit hours in Independent Study will be permitted in any degree Program.
4. Exceptions to any of the stated procedures may be made only with the approval of the Department Chair.

The Request for Approval of Independent Study Form is available in the Department Office. The student must complete this form, submit a brief outline describing the nature and method to be employed in conducting the Independent Study, and obtain signatures from the faculty sponsor and Program Director. This must be done before registration for the Independent Study.

**Student Orientation**

Near the start of the fall semester of each academic year, an orientation for all School Psychology Program students is held. With the exception of out-of-town interns, all students must attend the orientation.

New students will be directed to the Program’s Student Handbook, oriented to the mission of the Program, introduced to the Student Affiliates of School Psychology (SASP), and other procedural issues. This orientation provides an opportunity for new students to meet all School Psychology faculty members. Students are encouraged to use this forum to clarify Program procedures.

Students will be required to sign an *Agreement of Understanding* prior to their first year. This form covers the following:

1. Expectations for attendance, completion of all work
2. Professional manner during classes, practicum and/or internship
3. Responsibility for all assessment materials (test kits and protocols)

This form will remain in effect for the duration of the student’s enrollment in the Program.

Current students will be informed of general updates. PsyD students will meet in small groups in order to prepare for the expectations of the coming year.

**Annual Clearances Required**

Five clearances will also be needed for your student file **BEFORE** you begin classes. All graduate students will need to pursue their clearances for a **July to July** or **August to August** schedule. Students should not renew clearances during the academic year:

1) Act 33 Child Abuse
2) Act 34 Criminal History
3) Act 114 FBI *(PDE*)
4) TB Test
5) Act 126 Mandated Reporter Training
*For the FBI clearance you must choose the Pennsylvania Department of Education (PDE) option once you link on to the IdentoGO website THROUGH DORI. Please enter code 1KG6RT. All fingerprinting must be completed in Pennsylvania, even though your field site may be out of state.

**Clearance Information**

Log onto DORI, click on the “Index” icon at the top of the page, click on “Education”, click on “Undergraduate Student Resources” (even though you are a graduate student), click on “Clearances”.

Clearances should be given to Cindy Cafaro, cafarol@duq.edu, Canevin Room 214, during the first week of classes (or over the summer if you are on campus). Ms. Cafaro will review and record the dates only and return the copies back to you. We are not permitted to keep any copies. Students are to maintain their original clearances. If you are unsure if your clearances are current, please call the Office of Student and Academic Services at 412.396.6093.

**Immunizations**

The Student Code of Conduct requires that ALL graduate students supply evidence of their required immunizations via the Health Service Student Portal in DORI. [https://www.duq.edu/life-at-duquesne/health-recreation-and-wellbeing/health-services/health-service-student-portal-and-immunization-compliance](https://www.duq.edu/life-at-duquesne/health-recreation-and-wellbeing/health-services/health-service-student-portal-and-immunization-compliance-

**Advisement**

Upon entering the School Psychology Program, each student is assigned an advisor. However, students may change their advisor as they become more familiar with the School Psychology faculty. It is important for all students to meet with their advisor on an ongoing basis throughout their course of study. All students take a prescribed sequence of courses, yet students are strongly encouraged to consult the Program website and consult with his or her advisor periodically to ensure proper Program sequence.

Although a considerable amount of Program information is made available to students electronically in the form of listservs, e-mails, and the School Psychology website, we believe that there is no substitute for personal, face-to-face advisement. It is the student’s responsibility to schedule a conference with his or her advisor each semester to assist with registration. Additionally, students are encouraged to meet with each of the School Psychology faculty during their first semester on campus.

The Program also has a full-time assistant who can be a valuable resource regarding Program policies and procedures.

**Change of Advisor**

If a student requests a change of faculty advisor, the student must complete and sign the Change of Faculty Advisor Form and obtain the signatures of the former advisor, new advisor and Program Director. The Change of Advisor Form is available on the Current Students tab of the School Psychology Program website.
Annual Student Self Evaluation

All School Psychology students are expected to complete and submit an online annual self-evaluation at the end of each spring semester, including the internship year. The Program will email the self-evaluation link to you by the Program in the spring semester of each year. The purpose of the Annual Student Self Evaluation is to provide you with the opportunity to reflect on your knowledge and skill development, and revisit the experiences that have contributed to your professional growth. Please be specific in your responses. The first portion of the evaluation will ask you to comment on your growth regarding each of the Program’s stated aims and competencies and then rate your current level of knowledge and skill development pertaining to each competency. The second portion of the evaluation will ask you to rate your personal dispositions and professional behavior. Finally, you will set at least three goals for the upcoming year and comment on the extent to which you met the previous year’s goals.

The faculty will review your self-evaluation by the start of the fall semester, provide you with the ratings of the collective faculty, and then provide you with written feedback to highlight particular areas of strength and/or areas in need of development. Please understand that the Program holds high expectations for its students, so ratings that reflect exceeded expectations will be reserved for exemplary performance given the student’s stage of training. Your faculty advisor will invite you to discuss any ratings that fall below expectations. In addition to a conference with your advisor, any ratings that indicate below expectations performance may trigger the development of a remediation plan.

Ongoing Evaluation of Student Progress

In addition to the annual student evaluation, the faculty has a dedicated portion of each regularly scheduled faculty meeting to discuss the knowledge, skills, dispositions, and professional behavior of individual students. If concerns arise out of class or field-site performance, appropriate and reasonable student support will be provided through the student remediation procedures below.

Student Remediation Procedures

Program faculty members provide frequent feedback to students regarding the development of their knowledge, skills, and professional dispositions through such mechanisms as evaluation of course tests and assignments, evaluation of practicum products, course grades, and annual evaluations. Likewise, field-based supervisors also provide feedback to students through field-site evaluations. These are considered routine mechanisms for feedback regarding one’s development. If sufficient concerns about a student’s functioning or ability to meet professional standards of performance are identified as a result of the ongoing review of student development, one or more of the following procedures will be implemented:

1. The student will be contacted by the faculty member who holds the concern(s) and asked to attend a meeting to discuss the nature of the concern(s) and ways to address the concern(s). A student should consider this to be formal notice that if the difficulty is not remedied, a formal
remediation plan may become necessary, or if the problem intensifies, dismissal from the Program is possible.

2. If the concern(s) is significant and will remain a significant practice barrier if not addressed, a plan to remedy the concern(s) will be developed in a meeting attended by at least the student, the faculty member(s) who holds the concern, and the Program Director. The student’s advisor may also attend this meeting. If the Program Director is the faculty member who holds the concern, another faculty member will attend the meeting so that two faculty members represent the Program in the meeting. This remediation plan will attempt to operationally define the student’s problem(s), identify the expected performance or behavior, specify possible methods that could be used to reach those goals, and designate a date for projected goal attainment or re-evaluation. During this remedial period, the student is considered to be on “probation” with the Program. If the student chooses not to accept the remediation plan, the student will be immediately dismissed from the Program.

The remediation plan will be reviewed in a time frame expressed on the document. At the time of review, and with the consensus of the larger Program faculty, the faculty members administering the remediation plan will share one of the following outcomes:

   a. The specified concern(s) is no longer present or a significant barrier, and the student is allowed to continue in the Program with appropriate support.

   b. Continued probation and remediation is necessary, so an updated remedial plan will be devised with a new progress review date.

   c. Formal dismissal from the Program is necessary.

3. In cases where there has been an extraordinary breach of legal/ethical code, appropriate academic conduct, or Program policies and procedures, or if faculty concerns have not been successfully addressed through a formal remediation plan or the student needs a second plan, dismissal from the Program will occur. The decision to dismiss a student follows a consensus decision of the faculty that dismissal is warranted.

During the student remediation process, and in light of the great time, expense, and emotion invested in graduate education, the faculty may recommend that the student withdraw himself or herself from the Program due to the faculty’s impression that the student is at great risk for never being able to meet Program expectations. This option is exercised out of concern for the student.

Retention Standards

The PsyD School Psychology Program requires the following for students to maintain academic good standing in the Program:

Knowledge and Skills

   1. Students must earn a grade of B- or above in all coursework and “pass” all practicum experiences.
2. If a student does not earn a B- or above in a course or “pass” a practicum experience, the course or practicum experience may only be re-taken one time. Automatic dismissal from the program will occur if a student does not successfully complete the second attempt of a course or practicum experience.

3. If a student does not pass Integrated Practicum in the spring semester of second year, the student will not be released for third year classes and practicum. The student’s course of study will be appropriately amended.

4. Students must receive acceptable yearly ratings by faculty on the student evaluation form as it pertains to knowledge and skill areas.

5. Students must be deemed eligible to continue to the next stage of training at the annual faculty review of student progress.

Dispositions and Professional Behavior
1. Retention in the Program requires that each student’s record be free of difficulties that would make it impossible for the Program to endorse the student for future practice or to place the student at field-sites because certification as a school psychologist by the Pennsylvania Department of Education requires a background check and documented absence of potentially relevant legal difficulties.

2. Students must receive acceptable yearly disposition and professional behavior ratings by faculty on the Annual Student Evaluation.

3. Students must receive acceptable ratings regarding dispositions and professional behavior from practicum and internship supervisors.

Students who do not meet the above criteria will be subject to a faculty-required remediation plan to develop and demonstrate mastery of essential competencies and/or demonstrate improvement with respect to professional dispositions and behavior. Depending on the severity of the issue, dismissal from the Program is possible. See student remediation procedures above.

Due Process: General Guidelines

Due process ensures that decisions made by Program faculty about graduate students are not arbitrary or biased, requires that Programs identify specific evaluative procedures which are applied to all trainees, and have appropriate appeal procedures available to the student so he/she may challenge the Program’s action.

General Program due process guidelines include:

1. Presenting graduate students, in writing, with the Program’s expectations related to professional functioning (See Agreement of Understanding within new student checklist on the Current Students tab of Program Website)

2. Stipulating the procedures for evaluation, including when and how evaluations will be conducted (such evaluations should occur at meaningful intervals)

3. Articulating the various procedures and actions involved in making decisions regarding professional functioning

4. Instituting a remediation plan for identified inadequacies, including a time frame for expected remediation and consequences of not rectifying the inadequacies (See Student Performance Review form, Current Students tab of Program Website)
5. Providing written procedures to the graduate student which describes how the graduate student may appeal the Program’s action
6. Ensuring that the graduate student has sufficient time to respond to any action taken by the Program
7. Using input from multiple professional sources when making decisions or recommendations regarding the graduate student’s performance and
8. Documenting, in writing, in student’s file, and to all relevant parties, the action taken by the Program and its rationale.

The School of Education also has academic due process procedures may be accessed by students. These are included within the School of Education policy and procedure manual which can be found at: http://www.duq.edu/academics/schools/education/about-the-school/policies-and-procedures.

University-level, graduate student due process procedures also exist. These procedures are included in the current graduate course catalog and may be found more directly at: http://www.duq.edu/academics/university-catalogs/2016-2017-graduate/academic-policies.

**Final Grade Appeal Policy**

The purpose of the School of Education’s Final Grade Appeal Policy is to establish a clear, fair, and uniform process by which students may contest the final grade assigned to them for a course or other degree 26 requirement. Final grades reflect exclusively the academic achievements of students and will be changed only in exceptional circumstances and only with the approval of the appropriate academic college/school dean. The School of Education Final Grade Appeal Policy may be found at: http://www.duq.edu/academics/university-catalogs/2016-2017-graduate/academic-policies/final-grade-appeal-policy.

**Student Mail Folders**

Each PsyD student has a folder in the mail room on the first floor of Canevin Hall. Students are encouraged to check the folder on a regular basis.

**Program Student Files**

Students may access their personal files in the Program office through their advisor. Students may access the letters of recommendation from their application package, unless a letter is accompanied by the FERPA (Family Education Rights and Privacy Act) form declining access by the letter’s author.

**Test Kits**

The Program maintains an expansive test kit library for use during practicum experiences and internship. A one-time $100 test kit fee is assessed upon enrollment of the Program. With Program approval, test kits may also be used to complete an Applied Project. The purchase of test protocols will be the responsibility of the PsyD student if test kits are required to complete an Applied Project.
and the partnering school district does not provide test protocols. A test kit log is used to check out and check in test kits. This log can either be found in the Program office, or the Graduate Assistant office in the basement of Canevin Hall. The log will prompt you for your name, phone number, date needed, date checked out, and date checked in. A test kit must be returned within 48 hours of checking out the test kit. Failure to do so may result in a significant reduction in course participation and professionalism points. In the event that a test kit checked out to a student becomes lost, stolen, or damaged, it will be the student’s financial responsibility to replace the material(s). There is also a checklist for the components in each kit. It is the responsibility of each student to check the contents of the kit prior to accepting possession of the test kit. Protocols for all test kits can be obtained through the Program and Graduate Assistant offices.

**Practicum and Internship Logs**

All students are required to keep accurate and up-to-date practicum and internship logs that detail all field experience activities. The Program has adopted, Time2Track, as the mechanism to complete practicum and internship logs. Each student will pay a yearly fee that will be attached to tuition. The program will provide students an access code to connect with the program’s account. If a student has difficulty using the system or determining which category under which to log an activity, the university supervisor of the field experience may be consulted. For technical issues, the student is encouraged to contact Time2Track directly. An advantage to using this system is that if the student elects to apply to an APPIC internship, the data can be easily exported into the APPIC application. Furthermore, “Activity Summary Reports” can be run. That is how students may produce logs for a particular practicum experience, semester, or internship year. It is vital that students maintain accurate logs and complete them in a timely manner. The Program will require each student to submit a .pdf “Activity Summary Report” from Time2Track at the completion of advanced doctoral practicum activities and prior to being formally approved for internship. A final .pdf “Activity Summary Report” regarding the internship year must be submitted to the Program office upon completion of the internship.

**School Psychology Program Graduate Assistant Evaluation Procedures and Timelines**

Students who have graduate research or teaching assistantships in the department are evaluated each semester by their faculty supervisors. Graduate assistantship reappointment is in part dependent on the results of these performance evaluations.

**Conference Posters**

Conference posters can be printed by the Duquesne University Copy Center. The average size of a color poster is 3’x4’ and costs approximately $50 (determined by the 4’ length). Please allow at least one week for printing.

**PsyD Graduation Policy**

A PsyD student will be eligible for graduation upon the completion of all Program requirements, including all coursework, the Applied Project, and internship. Prior to the end of the semester of
anticipated graduation, Students can apply for graduation via DORI. Once logged in, go to Self Service Banner-Student Information-Student Records-Apply to Graduate.

Certification

Upon completion of all requirements of the PsyD Program, students will submit the required documentation for state certification to Student Academic Services in Canevin Hall for approval. The documentation will then be forwarded to the Pennsylvania Department of Education for certification.

Student Affiliates in School Psychology (SASP)

The Duquesne University School Psychology program supports a chapter of the graduate student organization known as Student Affiliates in School Psychology (SASP). SASP is both a national and local group that is responsible for voicing the needs and concerns of students to national and program-specific leadership as well as organizing fun, and at times informative, social gatherings to help enhance the graduate school experience.

At the national level, SASP is affiliated with Division 16 of the American Psychological Association (APA). Membership at the national level will provide students with an excellent opportunity to interact and network with other school psychology graduate students around the country. SASP at the national level is also responsible for many social gatherings at national conferences and provides students with opportunities to get involved in important issues that are relevant to graduate students. Students from Duquesne’s program have a strong history of participation in SASP at the national level and our students have been elected to several high-ranking offices in the group including President of the national organization. Students are able to become a member of SASP at the national level by visiting [http://apadivision16.org/](http://apadivision16.org/) and filling out the membership form. Membership is free the first year and $20 each year thereafter.

The goals and objectives of Duquesne’s local chapter of SASP mirror those of the national group. In a broad sense, the goals of our local SASP chapter are threefold. First, SASP serves as a line of formal communication between students and professors. If a student has any questions or concerns regarding program operation, alerting SASP leadership of those problems will assure that those concerns are quickly passed along to professors in a professional and confidential manner whenever possible. The Duquesne professors and SASP leadership have shown a strong ability to work through a broad range of student problems and concerns in the past and will continue to strive to work together to make the best of our students’ graduate school experience.

Second, our local chapter of SASP is responsible for planning and initiating several fun social gatherings for students program wide. These events include such activities as beginning and end of year picnics, several happy hour gatherings throughout the year, and a Halloween costume party hosted at a professor’s home. These activities are a great time to socialize with students both in and outside of a specific cohort as well as spend time socially with professors.

Finally, SASP provides opportunities for student growth through informative speaking events and community outreach opportunities. Each year, SASP plans a Speaker Series event which brings in individuals to discuss a research topic or skill that is relevant and interesting to our students and their futures in the field of school psychology. Also, SASP initiates several community service
opportunities that allow students to get together and give back to the local Pittsburgh communities in a variety of ways.

The Duquesne chapter of SASP also provides students with several opportunities to get involved in a leadership position. Elections for SASP leadership positions are held each spring. The SASP leadership board is comprised of:

- Two Co-Chairpersons
- Social Chairperson
- Treasurer
- Secretary
- Social Media Chairperson
- Speaker Series Chairperson
- Volunteer Chairperson
- Newsletter Chairperson
- Cohort Representatives – one member of each cohort which is chosen within the first two weeks of the fall semester

Formal SASP meetings are generally held monthly and are often open to all students of the program. Membership in our local chapter of SASP is strongly encouraged. The local chapter membership cost is $15 per year. These funds go to all local events such as socials, volunteer projects, speaker series, and other professional development opportunities. The website is updated monthly with information specifically relating to the students. It is also encouraged for students to join the Duquesne University School Psychology Facebook page at https://www.facebook.com/groups/78012575767/?fref=ts

STUDENT RESOURCES

Office of Disability Services

Students who require accommodations should contact the Office of Disability Services, located in Room 309 of the Duquesne Union (412-396-6657). Only students who are registered with the Office of Disability Services will receive accommodations. Reasonable accommodations may be granted based on appropriate documentation from a licensed medical professional. All students are expected to demonstrate the requisite academic and technical standards necessary to complete this course and requisite to participation in the educational program, with or without an accommodation.

Financial Aid, Health Insurance and Student Status

A full time graduate student is a student who is scheduled for five (5) or more credits per semester. Doctoral students taking at least one dissertation credit, or one internship credit are considered full-time students. Full time and half time graduate students are eligible for financial aid.

The Financial Aid Form states that only students scheduled for nine (9) or more credits will be considered for financial aid for that academic year. However, as per an agreement
with the Financial Aid Office, students who are scheduled for at least 5 credits who are awarded loan money via the FAFSA process will most likely receive financial aid. Part-time students may not receive as large a refund (living expenses) in loans as they would have received if scheduled for full-time. Please call Financial Aid with any questions (412) 396-6607.

In light of the rising cost of health care and the negative effects of inadequate health care on a student’s academic experience, the University has instituted a new policy regarding student health insurance. Effective August 1, 2006, all full time students must have medical insurance coverage and provide the University with verifiable proof of coverage.

All full time students must have adequate medical insurance coverage and provide the University with verifiable proof of coverage. If you do not provide proof of insurance or enroll in the plan offered by the University, you will be automatically enrolled in the University's plan, and your student account will be billed for the cost of the insurance in two installments. For more information, please go to: http://www.duq.edu/health-insurance.

Gumberg Library and Curriculum Center

Students should visit Gumberg Library at www.library.duq.edu to familiarize themselves with the many resources available through the library. Students can also schedule a tour of the facility.

In addition, there is a practice manual for the School Psychology Praxis test available in the Sullivan Curriculum Library in the Gumberg Library: School Leaders and Services Study Guide (covers Administration and Supervision, School Psychologist and School Guidance and Counseling Tests). There are five copies available.

Graduate Assistantships

A limited number of Graduate Assistantships are offered in the School Psychology Program each academic year. They are open to full-time, graduate education students who are available to give approximately 10-20 hours of service per week from mid-August through mid-May. Application materials include a letter of intent and two letters of reference. Application materials should be sent directly to the Program for which you are applying. School Psychology application material should be sent to the School Psychology Program, G3 Canevin Hall, Pittsburgh, PA 15282.

Applications are typically due on March 1 and selections are typically made approximately by July 15.

Graduate Assistantships are offered every year and are not renewed automatically. Every student interested in a position must submit the application materials, even existing Graduate Assistants.

The Graduate Student Facilitator will conduct an orientation before the Fall semester each year for all Graduate Assistants working in the Program. The Facilitator will prepare a work schedule and will notify Graduate Assistants of their expectations. The Facilitator will also conduct a mid-year evaluation with input from all faculty members.
For the candidates selected to receive a School Psychology Graduate Assistantship, contracts are mailed from the Dean’s office in August. Bi-weekly time sheets are available in the Program Office and need to be completed and submitted to the Program office (G3 Canevin Hall) according to the deadline schedule from the Duquesne University Human Resources Office at http://www.duq.edu/work-at-du/human-resources-home.

Other Assistantships

The Dean’s office in the School of Education releases information regarding additional assistantships in early January. The application package for these assistantships should include a letter of intent, stating why an assistantship would help with your graduate studies, along with two letters of reference and a resume. The application material should be submitted by March 1.

For the candidates selected to receive an assistantship, contracts are mailed from the Dean’s office in August.

Interested students can also contact other departments or offices throughout the University to see if positions are available. Please refer to the University website http://www.duq.edu/admissions-and-aid/graduate/graduate-financing/employment-for-grad-students.

Graduate Assistantships are available throughout campus for other Programs. Students should contact individual Programs for opportunities. There is a list of positions held by School Psychology students. This list is available on the Program website under FAQ’s.

Grants, Scholarships and Fellowships

There is a list of available grants, scholarships and fellowships on the School Psychology website resource page. The Program Office also has a series of books on available grants.

Professional Organization Memberships

Students are strongly encouraged to consider joining the National Association of School Psychologists (NASP), the American Psychological Association (APA), Division 16 (School Psychology) of APA, the Association of School Psychologists of Pennsylvania (ASPP), the Pennsylvania Psychological Association (PPA), as well as the Duquesne University Student Affiliates of School Psychology (SASP). These are valuable aids in your education. They will also continue to be valuable throughout your career in the forms of information dissemination, professional identity and networking, and continuing education.

Continuing Education Opportunities

Because professional learning and development should be a life-long process, the faculty strongly encourage students to attend the annual conferences of the Association of School Psychologists of Pennsylvania (ASPP), the Pennsylvania Psychological Association (PPA), the National Association of
School Psychologists (NASP), and the American Psychological Association (APA), among the convening of the variety of professional societies and organizations that are related to the professional practice of psychology. These are important sources of continuing education beyond attendance in the Program.

PROGRAM FORMS AND DOCUMENTS

Program forms and documents can be found on the Current Students tab of the School Psychology Program website. The online system for logging Program activities is https://time2track.com/. The Program now provides field-site supervisors with electronic forms to rate practicum students and interns.
